

Chemical Cleaning Engineering  
A World of Trust & Capabilities

# About Us

Chemical Cleaning Engineering Specialists, Inc. serves the commercial and industrial market as Chemical Cleaning Contractors & Engineering Consultants, Environmental Cleaning Contractors and Mechanical Maintenance & Construction Contractors since 1995. We are certified by the National Minority Supplier Development Council as a Certified Supplier since 2010.

Our unique combination of trades and extensive experience make us one of the most reliable contractors in the industry for the benefit of our customers. The firm has earned a second to none reputation in the pharmaceutical, power generation, water utility, petroleum processing and food manufacturing industry over years of proven performance.

We are an environmentally friendly company that performs at the highest standards of the industry to provide the most effective chemical cleaning, environmental cleaning and mechanical construction solutions to our customers.

## CHCL Divisions

CHCL Engineering offers three divisions to better fit your needs either in Florida, Puerto Rico, the Caribbean or Central & South America.

### **Chemical Cleaning**

Passivations and Acid, EDTA & Alkaline chemical cleaning solutions for all your maintenance and consulting needs.

### **Environmental Cleaning**

Extensive experience on routine environmental cleanings, storage tank, waste treatment reactors or spill emergency response.

### **Mechanical Contractors**

Maintenance, refurbishing and automation of manufacturing, pharmaceutical or any other industrial facility.

## Environmental Cleaning

CHCL Engineering counts with industrial super vacuum trucks, specialized equipment and experienced personnel for the effective cleaning of your site, equipment, vessels or waste treatment plant. You can count with us for routine cleanings or emergency response situations during spills or any other environmental or natural disaster event.

- **Super Vacuum Truck & Storage Tank Trucks**
- **Liquid-Sludge Transfers & Tank Cleaning**
- **Waste Water Management & Disposal Services**
- **Plant Precommissioning, Decontamination & Cleanup**
- **Spill Cleaning & Emergency Response**

# Industrial Chemical Cleaning

CHCL Engineering counts with licensed chemical and mechanical engineers having extensive experience on chemical and mechanical cleanings, passivation, derouging, degreasing and special cleaning applications including boroscope video inspections. With a background as technical specialists of chemical treatment companies, our engineers provide insight recommendations on how to monitor your chemical treatment programs for the prevention of corrosion and deposition as part of our added value service.

**Biotech & Pharmaceutical Companies  
Consulting & Inspection on Chemical  
Cleaning  
Commissioning, Maintenance or  
Decommissioning  
Acid, Alkaline, EDTA, Neutral pH Cleanings  
Passivation, Derouging, Boroscope Video  
Inspection  
Hydroblasting & High Velocity Oil Flushing**

# Mechanical Maintenance Contractors

CHCL Engineering can refurbish your waste treatment facilities to enhance their effectiveness. Experienced chemical, mechanical, electrical and civil engineers will be taking care of your project with proper documentation and quality of execution.
